"Pushes Internet Monitoring into fresh territory"

-Wall Street Journal

# BeAware Home Edition

PC & Internet Monitoring Software

The only monitoring software with "Watch by Web"\*

Records All IMs, Emails, Computer Usage, Screen Captures, and More.

### Supervise Internet Use

Watch easy to view sideshows to see exactly what sites they visit and what they look at.

### Monitor Chats & Emails

Set keyword alerts to receive emails whenever they discuss sex, drugs, violence and more.

### Protect against online Predators

Prevent unwanted encounters before they happen with keyword alerts via email.

### Watch your home PC Anytime, Anywhere\*

With our Watch-by-Web™ service you can log-in at any time, from any Internet connection to monitor your PC.

\*BONUS: Free 30 day trial of the optional "Watch by Web" service included with your purchase. This enhanced service is not required to use and enjoy the software.

## Easy-to-use Supervision & Monitoring Software

Start protecting your loved ones from predators, pornography, and more!

Monitor your Home Computer Anytime, Anywhere\*

BeAware Watch-By-Web™ is an optional, easy to use solution that lets you access your BeAware History through the web. Access all activity occurring on your PC anywhere you have Internet access. Browse the web along with your children, view chats in real-time as they occur, and read e-mails the instant they are sent.

### Instantly Find Out:

- ✓ Who they are talking to in chat rooms and what they are saying.
- ✓ Exactly which web sites they have been visiting.
- ✓ What they are emailing and to whom.
- ✓ Set automatic keywords to alert you of discussions about sex, drugs, violence, suicide, or set your own keywords alert.\*
- ✓ Everything they do on your computer with a slide show of all PC activity.

## Keep your kids safe on the Internet

When your children are on the Internet, they're at serious risk. Predators are prowling chat rooms posing as kids. Inappropriate websites are just mouse-clicks away.

### Easy-to-use Supervision & Monitoring Software

BeAware monitoring/surveillance software allows you to monitor EVERYTHING your child does on your PC - in total stealth.

When you download and install BeAware on your PC, it's on the job 24/7 monitoring all internet activity. Whenever you like, simply log on to any computer with Internet access, and you'll be able to view all PC activity.\*

### Key Features

- ✓ View screen shots
- ✓ Record IM chats
- ✓ Record e-mail activity
- ✓ View websites visited
- ✓ Records applications used
- ✓ Keyword alerts via e-mail\*
- ✓ Monitor activity over the web\*
- ✓ Stealth mode option

Keeping your children safe online isn't "spying." It's responsible parenting.
